

Get the good credit you deserve

United Credit Education Services

What We Do:

United Credit is the leading company specializing in credit restoration. Our processing center utilizes the latest technology ensuring fast, accurate service for our customers. Our team of experienced professionals is highly knowledgeable and holds the Credit Reporting Agencies accountable to utilize the newest legislation regarding the Federal Trade Commission guidelines and the Fair Credit Reporting Act.

In addition to the credit restoration process, our extensive library of credit education and budgeting information will help you to maximize your credit score in three additional important ways - by showing you how to read and interpret your credit report, by showing you how your credit score is calculated, and by helping you understand and improve your personal finances.

When Bad Credit Happens To Good People

Good credit is more important than ever and credit scores are plunging with the impact of the struggling economy. Not only do low credit scores prevent consumers from obtaining new credit when they need it most, they may also face additional penalties such as increased interest rates, higher late fees or over-the-limit fees, shorter grace periods and lowered credit limits when they can afford it least.

Most people with bad credit are not irresponsible, or are they unwilling to pay their obligations. In fact, if you're like most people, you probably maintained a good credit profile until an unforeseen circumstance like a layoff that prevented you from paying on time.

Why Use A Professional Service?

Just as many Americans choose to go to a tax professional to have their taxes done to ensure they receive the maximum refund available, the same can be said about credit restoration. Anyone can choose to do their own credit restoration, if they have the time, patience, and resources to work aggressively with the CRAs to remove inaccuracies; however, many choose United Credit.

We have the knowledge, experience and most effective approach to credit restoration in the industry. United Credit is proud to offer our time proven strategies, including the industry's first proactive and interactive customer service.

You pay one price and will enjoy the peace-of-mind knowing that a professional company is backing you.
